Subject: Non-PRIA (Pesticide Registration Improvement Act) Labeling and Formulation Amendment – Update the Active Ingredient Name on the Labeling and the Basic Confidential Statement of Formula (CSF), Revise the Hazards to Humans and Domestic Animals Section in Sub-Label A, and Revise the Storage and Disposal Box in Sub-Label C in Response to the EPA’s March 14, 2011, Letter and Other Minor Revisions to the Labeling and the Basic CSF
Product Name: VectoLex® FG Biological Larvicide Fine Granule
EPA Registration Number: 73049-20
Application Date: April 4, 2011 (and subsequent revisions)
OPP Decision Number: 448006

Labeling and Formulation Notification per Pesticide Registration Notice 98-10 – Change to the Primary Brand Name on the Labeling and the Basic CSF and Modification of Inert Ingredient Suppliers on the Basic CSF
Product Name: VectoLex® FG Biological Larvicide Fine Granule
EPA Registration Number: 73049-20
Application Dates: February 10, 2012 (and subsequent revisions) and August 2, 2012 (and subsequent revisions)
OPP Decision Numbers: 461673 and 468480

Dear Ms. Walz:

The amended labeling and Confidential Statement of Formula (CSF) referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, are acceptable. The acceptable amendment also includes labeling and CSF modifications proposed in notifications that you submitted to the U.S. Environmental Protection Agency (EPA) with an application dated February 10, 2012 (OPP Decision No. 461673) and an application dated August 2, 2012 (OPP Decision No. 468480).

This approval does not affect any terms or conditions that were previously imposed on this registration. You continue to be subject to existing terms or conditions on your registration and any deadlines connected with them.

Please note that the record for this product currently contains the following acceptable CSF:

- Basic CSF dated 02/23/2015

Any CSFs other than those listed above are superseded/no longer valid.

A stamped copy of your labeling is enclosed for your records. This labeling supersedes all previously accepted labeling. You must submit one (1) copy of the final printed labeling before you release this product for shipment with the new labeling. In accordance with 40 CFR § 152.130(c), you may distribute or sell this product under the previously approved labeling for 18 months from the date of this letter. After 18 months, you may only distribute or sell this product if it bears this new revised labeling or subsequently approved labeling. "To distribute or sell" is defined under FIFRA section 2(gg) and its implementing regulation at 40 CFR § 152.3.

Should you wish to add/retain a reference to your company's website on your label, then please be aware that the website becomes labeling under FIFRA and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product's label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA's Office of Enforcement and Compliance Assurance.

Your release for shipment of this product constitutes acceptance of these terms. If these terms are not complied with, this registration will be subject to cancellation in accordance with FIFRA section 6.

If you have any questions, please contact me by phone at (703) 347-8920 or via email at kausch.jeannine@epa.gov.

Sincerely,

Jeannine Kausch, Regulatory Action Leader
Microbial Pesticides Branch
Biopesticides and Pollution

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Harmful if absorbed through the skin or inhaled. Avoid contact with skin, eyes or clothing. Wear protective eyewear. Avoid breathing dust. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Mixers/loaders and applicators not in enclosed cabs or aircraft must wear a dust/mist filtering respirator meeting NIOSH standards of at least N-95, R-95, or P-95. Repeated exposure to high concentrations of microbial proteins can cause allergic sensitization.

ENVIRONMENTAL HAZARDS

Do not apply directly to treated, finished drinking water reservoirs or drinking water receptacles when the water is intended for human consumption.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For use only by federal, state, tribal or local government officials responsible for public health or vector control, or by persons certified in the appropriate category or otherwise authorized by the state or tribal lead pesticide regulatory agency to perform mosquito control applications, or by persons under their direct supervision.

IN CALIFORNIA: This product is to be applied by County Health Department, State Department of Health Services, Mosquito and Vector Control or Mosquito Abatement District personnel, or persons under contract to these entities only.

APPLICATION DIRECTIONS

MOSQUITO CONTROL

VectoLex[®] FG Biological Larvicide Fine Granule (hereafter referred to as VectoLex FG) is a selective microbial insecticide for use against mosquito larvae in a variety of habitats. VectoLex FG can be applied to areas that contain fish, other aquatic life, and plants. VectoLex FG can be applied to areas used by or in contact with humans, pets, horses, livestock, birds, or wildlife.

I. For control of mosquito larvae species* in the following non-crop sites:

<u>Habitat</u>	<u>Application Rate Range</u>
Wastewater:	
Sewage effluent, sewage lagoons, oxidation ponds, septic ditches, animal waste lagoons, and impounded wastewater associated with fruit and vegetable processing.	5-20 lbs./acre**
Stormwater/Drainage Systems:	
Storm sewers, catch basins, drainage ditches, retention ponds, detention ponds, and seepage ponds.	5-20 lbs./acre**
Marine/Coastal Areas:	
Salt marshes, mangroves, and estuaries.	5-20 lbs./acre**
Water Bodies:	
Natural and manmade aquatic sites such as lakes, ponds, rivers, canals, streams, and livestock watering ponds and troughs.	5-20 lbs./acre**
Dormant Rice Fields:	
Impounded water in dormant rice fields. (For application ONLY during the interval between harvest and preparation of the field for the next cropping cycle.)	5-20 lbs./acre**
Waste Tires:	
Tires stockpiled in dumps, landfills, recycling plants, and other similar sites.	0.5-2 lbs./1000 sq. ft.

II. For control of mosquito larvae species* in the following agricultural/crop sites where mosquito breeding occurs:

<u>Habitats</u>	<u>Application Rate Range</u>
Rice, pastures/hay fields, orchards, citrus groves, and irrigated crops.	5-20 lbs./acre**

Apply VectoLex FG uniformly by aerial or conventional ground equipment. Reapply VectoLex FG as needed after 1-4 weeks.

*Mosquito species effectively controlled by VectoLex FG, including many of those known to carry/transmit West Nile virus:

Culex spp.
Aedes vexans
Ochlerotatus melanimon (*Aedes melanimon*)
Ochlerotatus stimulans (*Aedes stimulans*)
Ochlerotatus nigromaculis (*Aedes nigromaculis*)
Psorophora columbiae
Psorophora ferox
Ochlerotatus triseriatus (*Aedes triseriatus*)
Ochlerotatus sollicitans (*Aedes sollicitans*)
Anopheles quadrimaculatus
Coquillettidia perturbans

** Use higher application rates (10 to 20 lbs./acre) in areas where extended residual control is necessary, or in habitats having deep water or dense surface cover.

Avoiding spray drift at the application site is the responsibility of the applicator. The interaction of many equipment- and weather-related factors determines the potential for spray drift. The applicator and the treatment coordinator are responsible for considering all these factors when making decisions.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in cool, dry place.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. Completely empty bag into application equipment, then offer for recycling if available or dispose of empty bag in a sanitary landfill or by incineration or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

NOTICE TO USER

To the extent consistent with applicable law, seller makes no warranty, express or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on this label. To the extent consistent with applicable law, user assumes all risks of use, storage or handling not in accordance with accompanying directions.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Once the foil bag containing the water soluble pouches is opened, use the pouches within one day.

For use only by federal, state, tribal or local government officials responsible for public health or vector control, or by persons certified in the appropriate category or otherwise authorized by the state or tribal lead pesticide regulatory agency to perform mosquito control applications, or by persons under their direct supervision.

IN CALIFORNIA: This product is to be applied by County Health Department, State Department of Health Services, Mosquito and Vector Control or Mosquito Abatement District personnel, or persons under contract to these entities only.

APPLICATION DIRECTIONS

MOSQUITO CONTROL

VectoLex[®] FG Biological Larvicide Fine Granule (hereafter referred to as VectoLex FG) is a selective microbial insecticide for use against mosquito larvae in a variety of habitats. VectoLex FG can be applied to areas that contain fish, other aquatic life, and plants. VectoLex FG can be applied to areas used by or in contact with humans, pets, horses, livestock, birds, or wildlife.

I. For control of mosquito larvae species* in the following sites:

<u>Habitat</u>	<u>Application Rate Range</u>
Drainage/Drainage Systems: Storm drains, catch basins, retention ponds, detention ponds, and seepage ponds.	1 water soluble pouch/for up to 50 sq. ft ⁽¹⁾
<u>Treatment Areas (For Use In):</u>	
Ponds	Standing water
Lagoons	Storm water retention areas
Water gardens	Catch basins
Bird baths	Snow melt pools
Fountains	Abandoned swimming pools
Flower pots and planters	Unused swimming pools or spas
Hollow trees and tree holes	Flooded basements
Urns	Pool covers
Rain barrels	Gutters and drains
Livestock watering troughs/ponds/tanks	Wheelbarrows
Irrigation ditches	Garbage cans and covers
Roadside ditches	Discarded tires
Flood water	

Any location where water accumulates and remains standing for periods of time, except treated, finished water reservoirs or drinking water receptacles when the water is intended for human consumption.

(1) Treat on basis of surface area of potential mosquito breeding sites by placing one (1) water soluble pouch for up to 50 square feet of treatment area. Reapply VectoLex FG as needed after 1 to 4 weeks.

Longer periods of mosquito population suppression may result where sufficient numbers of non-target aquatic invertebrate parasites and predators are present since these are not affected by the product and contribute to mosquito population reduction.

*Mosquito species effectively controlled by VectoLex FG, including many of those known to carry/transmit West Nile virus:

Culex spp.
Aedes vexans
Ochlerotatus melanimon (*Aedes melanimon*)
Ochlerotatus stimulans (*Aedes stimulans*)
Ochlerotatus nigromaculis (*Aedes nigromaculis*)
Psorophora columbiae
Psorophora ferox
Ochlerotatus triseriatus (*Aedes triseriatus*)
Ochlerotatus sollicitans (*Aedes sollicitans*)
Anopheles quadrimaculatus
Coquillettidia perturbans

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product must be disposed of on site or at an approved waste disposal facility.

CONTAINER HANDLING: Offer foil pouch for recycling if available or dispose of empty pouch in the trash as long as the water soluble pouch is unbroken.

NOTICE TO USER

To the extent consistent with applicable law, seller makes no warranty, express or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on this label. To the extent consistent with applicable law, user assumes all risks of use, storage or handling not in accordance with accompanying directions.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

APPLICATION DIRECTIONS

MOSQUITO CONTROL

VectoLex[®] FG Biological Larvicide Fine Granule (hereafter referred to as VectoLex FG) is a selective microbial insecticide for use against mosquito larvae in a variety of habitats. VectoLex FG can be applied to areas that contain fish, other aquatic life, and plants. VectoLex FG can be applied to areas used by or in contact with humans, pets, horses, livestock, birds, or wildlife.

For control of mosquito larvae species* in the following sites:

Treatment Areas (For Use In):

Ponds	Standing water
Lagoons	Storm water retention areas
Water gardens	Catch basins
Bird baths	Snow melt pools
Fountains	Abandoned swimming pools
Flower pots and planters	Unused swimming pools or spas
Hollow trees and tree holes	Flooded basements
Urns	Pool covers
Rain barrels	Gutters and drains
Livestock watering troughs/ponds/tanks	Wheelbarrows
Irrigation ditches	Garbage cans and covers
Roadside ditches	Discarded tires
Flood water	

Any location where water accumulates and remains standing for periods of time, **except** treated, finished water reservoirs or drinking water receptacles when the water is intended for human consumption.

How to Apply:

Treats up to 2,178 square feet

Sprinkle 1 pound to cover 2,178 square feet.

(Sprinkle ½ pound per 1,089 square feet)

(Sprinkle ¼ pound per 544 square feet) (¼ pound = ½ cup = 4 ounces = 8 tablespoons)

(Sprinkle 1/8 pound per 272 square feet) (1/8 pound = ¼ cup = 2 ounces = 4 tablespoons)

Uniformly apply VectoLex FG with a 1 - 4 week interval between applications. Longer periods of mosquito population suppression may result where sufficient numbers of non-target aquatic invertebrate parasites and predators are present since these are not affected by the product and contribute to mosquito population reduction.

*Mosquito species effectively controlled by VectoLex FG, including many of those known to carry/transmit West Nile virus:

Culex spp.

Aedes vexans

Ochlerotatus melanimon (*Aedes melanimon*)

Ochlerotatus stimulans (*Aedes stimulans*)

Ochlerotatus nigromaculis (*Aedes nigromaculis*)

Psorophora columbiae

Psorophora ferox

Ochlerotatus triseriatus (*Aedes triseriatus*)

Ochlerotatus sollicitans (*Aedes sollicitans*)

Anopheles quadrimaculatus

Coquillettidia perturbans

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place.

PESTICIDE DISPOSAL and CONTAINER HANDLING: Nonrefillable container. Do not reuse or refill this container. **If empty:** Place in trash or offer for recycling if available. **If partially filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

NOTICE TO USER

To the extent consistent with applicable law, seller makes no warranty, express or implied, of merchantability, fitness or otherwise concerning the use of this product other than as indicated on this label. To the extent consistent with applicable law, user assumes all risks of use, storage or handling not in accordance with accompanying directions.

Optional Label Claims (May be placed on any of the Sub-Labels)

- Biological Mosquito Control
- Mosquito Biolarvicide Granule
- Highly selective microbial larvicide
- Targets mosquitoes in their breeding habitats
- Reduces the number of adult mosquitoes developing
- When ingested by mosquito larvae, VectoLex FG prevents larvae from becoming (developing into) breeding, biting adults.
- When ingested by mosquito larvae, VectoLex FG prevents the development of adults.
- Kills mosquito larvae upon ingestion.
- Kills mosquito larvae upon ingestion of Bsp toxins.
- Kills mosquito larvae upon ingestion by destroying the insect digestive tract.
- Kills developing mosquitoes (mosquito larvae), including those that may (are known to) transmit (carry) West Nile virus and other mosquito-borne diseases.
- Kills developing mosquitoes (mosquito larvae), including those that may (are known to) transmit (carry) West Nile virus, encephalitis, and equine encephalitis.
- Kills developing mosquitoes (mosquito larvae), including those that may (can) (are known to) transmit (carry) heartworm disease to dogs and cats.
- Apply in water where mosquitoes may breed; see label for specific use sites.
- Easy to use
- (Quickly) Controls exposed mosquito larvae in (within) 24 hours
- Up to 4 weeks between applications
